

# MANN-FILTER

## Product Information

No. 176  
19.07.2022

### Centrifuge insert ZR 12 001 z – colour of gaskets

We will temporarily use o-rings made from an alternative black elastomer besides the known green o-rings on the MANN-FILTER centrifuge insert ZR 12 001 z. O-rings from both materials are functionally approved and can be used without hesitation.

These o-rings are supplied with the centrifuges and are replaced during the maintenance.

MANN-FILTER provides the accustomed OE quality despite the differing gasket colour.

**MANN-FILTER – Perfect parts. Perfect service.**
