

## Replacement of 2256801 with 2258201

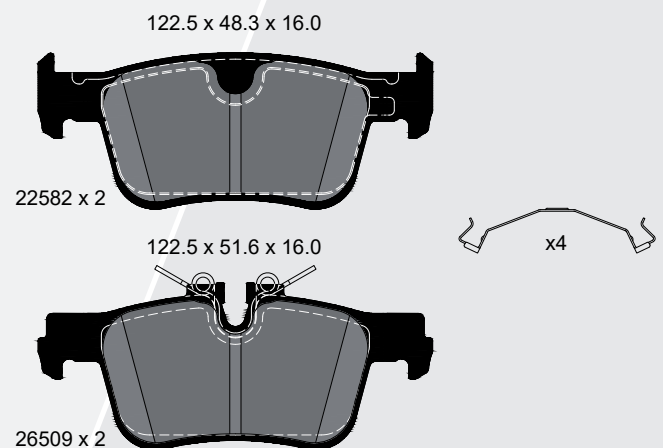

Following a supersession by Volvo, Textar will harmonise the references 2256801 and 2258201 keeping only the 2258201 in the portfolio. This will mean that 2258201 will be able to cover all applications of 2256801.

The WVA numbers of the pads are slightly different but there will be no difficulties during installation and operation as Textar follows the OES replacements.
