OE number:

Ford: 1555720 (5M5Q-6C344-AA)

1465253 (5M5Q-19A21-6DC)

Volvo: 31272239

Image 1: Deflection pulley without bracket

Image 2: Deflection pulley with bracket

The vehicle manufacturers for the models named above supply deflection pulleys for the front end accessory drive in both of the versions shown (image 1 and image 2).

As the bracket is not subject to wear, Schaeffler Automotive Aftermarket only offers deflection pulley 532 0649 10 without a bracket for the affected models (image 1). This deflection pulley meets all technical requirements in full and can be used without reservation.

The deflection pulley can be installed, with a torque value of 25 Nm, on the bracket already present in the vehicle without any restrictions.

Observe the specifications of the vehicle manufacturer!

Spare parts and technical information can be found under www.schaeffler-aftermarket.com or www.RepXpert.com.
